HISTORY:

www.portaportal.com Teacher: Cole

Sixth grade – ushistoryportal, Seventh grade – history2

Vue/history web page -- Go to our current unit folder (we are in unit 4 right now). There students will find **Quizlet sets, study guides and other materials.** This would only be for my students, as they are the only ones who have access to my Vue.

PortaPortal.com Sign in as a guest: hornsbyhistory1 (Any 6th grade student can do this. This site is managed by Nicole Loughman, 6th grade history and team lead at HMS). Students should scroll down to our current unit (right now, “Colonies”) and play review games. Note: Ms. Loughman includes some video-type games like PacMan and Mario. The students must answer questions to get another go once they “die.” These are not my favorite, as students good at these games can play for a long time without any real review. Really good reviews include anything with maps (marked “new”), “trash” games for basic word association, and the ever-popular “fling the teacher” (follow directions carefully).

For 7th grade: PortaPortal.com Sign in as guest: hornsbyhistory2

Binder Students should have Cornell Notes, vocabulary, maps, and other materials from our current unit that can be used to study and/or complete work.
