

Multi-Tier System of Supports (MTSS)

MTSS is a data-driven decision making framework for establishing the academic, behavioral and social-emotional supports needed for a school to be an effective learning environment for all students.

Tiers of Intervention:

- Tier 1 – Universal, for all students
- Tier 2 – Targeted interventions for some students
- Tier 3 – Intensive interventions for a small number of students

WJCC is a cohort participant through the Virginia Department of Education in the implementation of MTSS. As a cohort member, WJCC has received yearly grants, ongoing training opportunities and the support of a state-level MTSS coach.
