Photography and Publication Opt-Out Form

Throughout the year, opportunities may arise to publicly share information about WJCC Schools or celebrate its students, staff, and programs. This may be done by publishing photos, audio, or video of students through Division-affiliated channels, such as, newsletters, brochures, apps, websites, and social media, or by sharing with news media and community organizations.

Families that do not wish for their child’s photo, audio, or video to be published as described above may complete this opt-out form and submit it to their child’s school. This form is only valid for the school year in which it is submitted.

WJCC Schools may freely promote after-hours public events and capture photos, audio, or video at these events.

___ I do not want my child’s photograph, audio, or video to be published in the manner described above during the 2023-2024 school year. I understand this form does not apply to directory information (as defined in JO-R: Regulations for Student Scholastic Records), in-school use of my child’s photo or work (ex. classroom or hallway displays), my child’s inclusion in the yearbook, or public events outside of the school day, such as academic fairs or showcases, athletic competitions, arts performances, dances, etc.
